Untag Request Work Flow

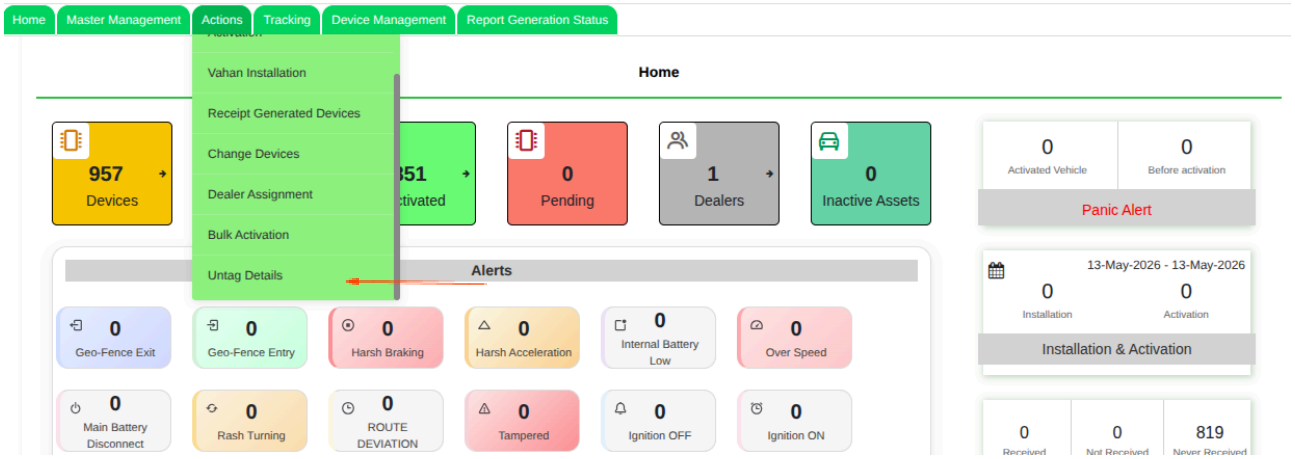

1. Untag Requests

Prerequisites:

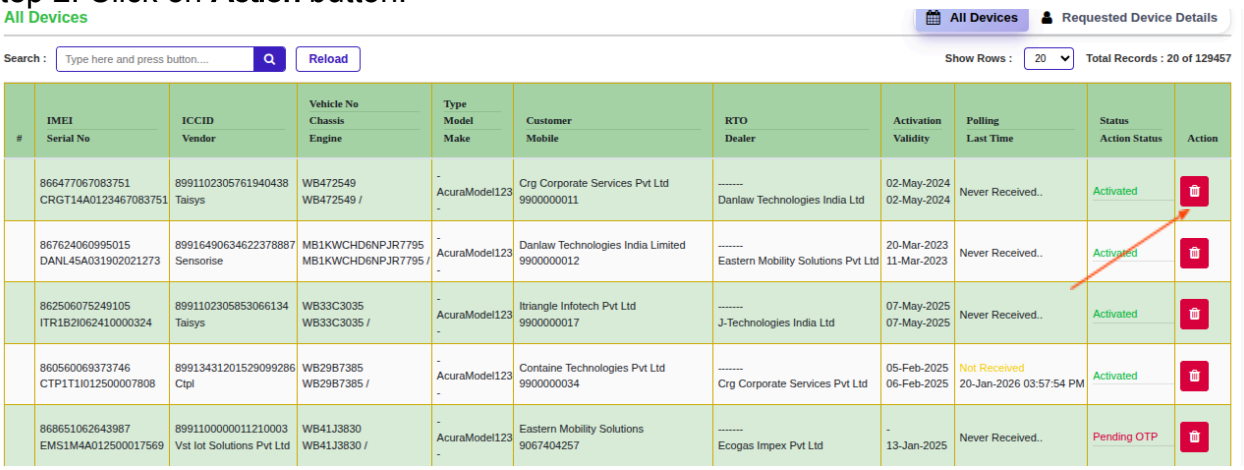

- User has valid login credentials
- Vehicle is mapped with a device in the system

Step 0: Login to the West Bengal VLTS Platform using your valid credentials.

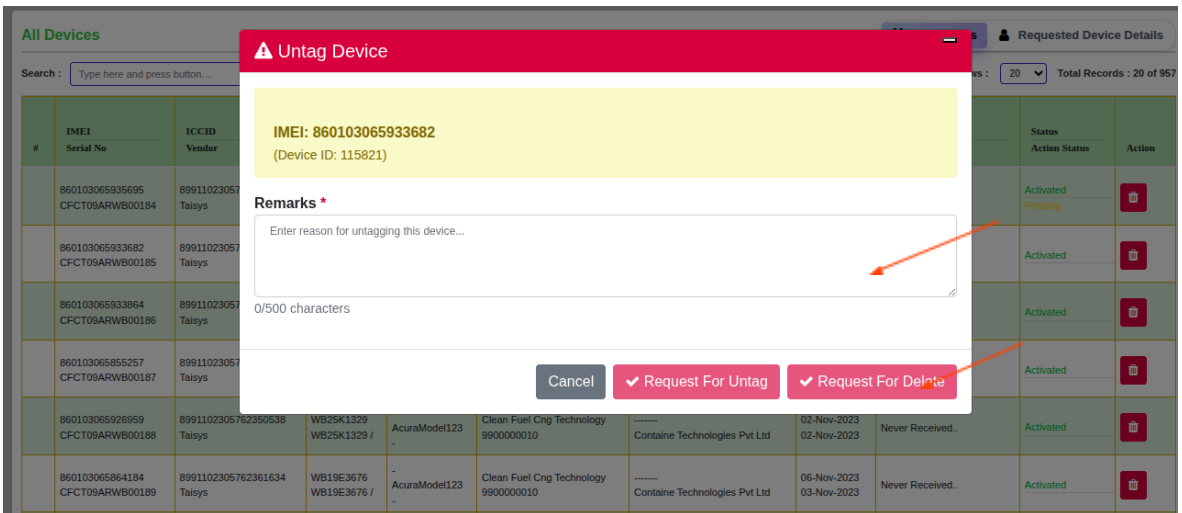

Step1: Navigate to Untag Vehicle Details

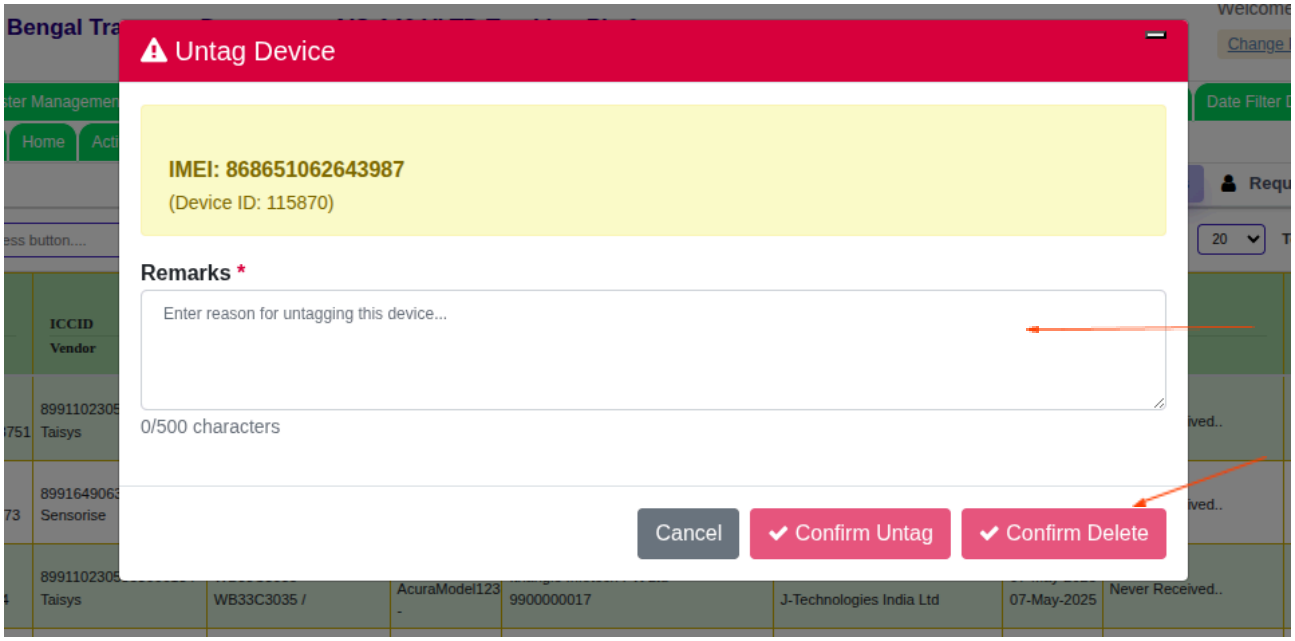

Step 2: Click on **Action** button.

Step3: If the vehicle status is **Active**, only the vendor can request vehicle untagging.

Step4: However, if the vehicle status is **Pending OTP**, the user can directly untag the vehicle themselves.

- After populating remark/reason click on Request For Untag or Request For Delete.
- Request will forwarded to Admin

Once request has been Approve or Rejected, It will show in Action status column and also in requested device details tab.
